

GLASS GRIND PLATINUM

Stoughcool Glass Grind Platinum is a premium metal working fluid formulated for glass grinding. It is formulated with a unique lubricant that not only cools and provides excellent wheel life for diamond wheels in grinding processes, but also provides excellent glass fine settling to maximize filtration. Stoughcool Glass Grind Platinum is also formulated with superior microbial control for longer sump life and fluid protection from bacteria and mold.

Glass Grind Platinum is an excellent choice for lens grinding providing exceptional cooling properties while keeping the grinding wheels clean and free of build-up. It also runs extremely clean and is formulated with Stoughcool's Jet Fresh Scent providing a very clean scent while machining. Operators love it!

LAB DATA

Form	Clear Liquid
PH Concentrate	10.2
PH 5% Mix	9.2
Solubility in Water	100%
Refractometer Factor	3.7

Advantages

- Excellent Lubrication
- Superior microbial control for long sump life
- Prevents build up of glass fines and glass packing
- Low foam, Low Mist
- Extremely clean
- Easy recycling or disposal
