

# The Ultimate High Performance Cutting Lubricant

# JET9 PXD

Stoughcool's Jet9 PXD heavy-duty hybrid micro-emulsion is a beast! Stoughcool Jet9 PXD contains a high lubricity package to achieve optimal tool life. Formulated for ferrous and non-ferrous materials, it's recommended to cut a wide range of materials. Stoughcool Jet9 PXD utilizes our C80 Shield Technology making it bio-resistant against bacteria and mold and provides excellent sump life measured in years! Absolutely no sump stench, no bad odors!

Jet9 PXD offers these advantages for:

- Extended sump life measured in years
- High lubricity formula, excellent tool life
- Great for high pressure systems, low foaming
- No formaldehyde release biocides
- Uses C80 Shield™ Technology Eliminating sump stench
- Extremely stable even in hard water conditions
- For cutting ferrous and non-ferrous materials
