

SPINDLE OILS

Stoughcool's Spindle Oils are premium low viscosity oils formulated to provide excellent lubrication in high speed spindle bearings and for precision grinders and other machine tools that require the need for low viscosity oil. They have excellent anti-wear protection additives and corrosion control and are formulated to reduce friction between moving parts. Stoughcool's Spindle oils extend bearing and spindle life and have excellent demulsibility qualities.

LAB DATA				
	Iso Grade	Flash Point	Visc. @ 40C	Rust Characteristics
Spindle Oil 2	ISO 2	185 F	2.1	PASS
Spindle Oil 10	ISO 10	235 F	10.0	PASS
