

E370

Stoughcool E370 is a clear, bio-resistant heavy duty cutting, grinding and tube rolling coolant for shops working multiple metals in a variety of operations. This product has been formulated to provide excellent lubricating, cooling, and corrosion inhibition properties in grinding, machining and tube rolling applications. Stoughcool E370 is recommended for a wide variety of metalworking operations including CNC milling, turning, drilling, boring, tapping, threading, tube rolling, and grinding. It is compatible with a wide range of materials including carbon steel, cast steel, high alloy steel, stainless steel, and cast irons. Stoughcool E370 is a true solution and has extremely low carry-off on parts resulting in low consumption rates. Its extremely clean and is clear while machining making it easy for operators to watch parts run through machine windows.

LAB DATA

Physical State	Light yellow/Clear Liquid
Odor	Mild
Solubility in Water	Soluble in Water
PH 5% mix	9.3
PH Concentration	9.9
Residue	Liquid Film
Refractometer Factor	2.0

Advantages

- No sump stench, no bad odors
- Extremely long sump life
- DCHA free
- Non-Chlorinated
- Low mist levels
- Low carry-off on parts
- Extremely clean
- Extreme Low foam formula

Stoughcool E370 does not contain nitrites, sulfur, phenolic biocides, chlorinated Eps or DCHA. Not for use on Magnesium.
